# NO CUTS • NO FEES • NO SACKINGS MAKE THE BANKERS PAY

As top bankers pay themselves 30% salary rises and million-pound bonuses, the Con-Dem Coalition has launched a programme of cuts designed to destroy the welfare state. The clock is being turned back to the 1930s.

**The cuts will deepen the crisis and foster racism and scapegoat politics. Instead we need investment in jobs, homes, transport, public services, and a sustainable economy.**

We have to meet the Con-Dem attack with a wave of demonstrations, occupations, and strikes powerful enough to stop the cuts. The students have shown the way. The speculators, the tax-dodgers, and the rich should pay for the crisis.

**The national demonstration called by the TUC can be the launch-pad for creating mass resistance among millions of working people. The Coalition of Resistance calls on all opponents of the cuts to start building for the demonstration now.**

Organise a CoR rally in your area. Plan local protests for the CoR week of resistance (14-19 February). Contact local unions, political parties, and anti-cuts groups. Book coaches for the demonstration and start selling tickets.

**Let's make Saturday 26 March the day we begin to turn the tide on the Con-Dem Coalition of millionaires.**
